Designed to exceed IFC24 fire-containment standards, it enables secure storage of bulk, damaged, or prototype batteries without the need for a separate fire-rated room. Lightweight, ...

Low gassing thanks to antimony-free alloy and internal oxygen recombination. Minimum space required and room requirements are ...

Built to endure extreme temperatures and deep discharge cycles, it's the perfect solution for demanding off-grid, backup, and renewable energy storage systems. Whether you're powering ...

GFM-C series VRLA battery uses latest AGM technology, high purity raw materials and many patented technologies that ensure its long floating and cycle life, it is applicable to less ...

The LiFePO4 technology has better thermal and chemical stability, which improves battery safety and packed with power in a small and lightweight footprint.

latest advancement in plate and battery technology offering exceptional service life, low self-discharge, high cycling capabilities and low float charge current characteristics.

Please charge the battery for 18 hours at current 80A with voltage limitation 2.4V every three months during stock.

GFM-800/2V800Ah is one popular model in 2V industrial battery. It is suitable to make a 12V, 24V, 48V battery bank. With patented AGM material and advanced thick plates, GFM-800 is ...

Universal battery cabinets for all three-phase Legrand UPS from 10kVA up to 800kVA power range. The Battery cabinet is designed to house standard VRLA Batteries of capacity range ...
