Will Tata Power install 100 MW battery energy storage system in Mumbai?

Mumbai: Tata Power announced on Monday that it has received approval from the Maharashtra Electricity Regulatory Commission (MERC) to install a 100 MW Battery Energy Storage System (BESS) in Mumbai over the next two years.

Where will a 100 MW power system be deployed in Mumbai?

The comprehensive 100 MW system shall be deployed across 10 strategically selected sites, particularly near load centres throughout Mumbai distribution, with centralised supervision and regulation from Tata Power's Power System Control Centre (PSCC).

How a 100 MW power system will improve Mumbai's power network resilience?

This will prevent large-scale blackouts and enhance Mumbai's power network resilience. The entire 100 MW system will be installed in the next two years across 10 strategically located sites, especially near load centres across Mumbai Distribution, centrally monitored and controlled from Tata Power's Power System Control Center.

What are the benefits of a power supply system in Mumbai?

It will protect essential services including the Mumbai Metro, hospitals, airports, and data centers from large-scale blackouts. The system is also designed to optimize reactive power management, improve peak demand efficiency, and reinforce the city's overall electricity infrastructure.

With real-time monitoring from Tata Power 's Power System Control Center (PSCC), the BESS will strengthen Mumbai's grid resilience, support clean energy adoption, and fulfill ...
