In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.

Latvenergo, Latvia's leading energy company, plans to install 250 megawatts (MW) of energy storage capacity by 2030. This ambitious target is part of a broader strategy to ...

With its factory-direct pricing, high efficiency, long lifespan, and safety, HighJoule's BESS Battery Energy Storage Cabinet 200kWh is an ideal energy storage system choice.

Managed by Utilitas, Latvia's largest wind energy producer, this project combines wind energy generation with advanced storage capabilities, setting a new standard for ...

Specializing in turnkey power containers since 2012, we serve clients across 14 countries. Our Liepaja facility combines Baltic engineering precision with agile manufacturing.

As we approach Q4 2025, industry watchers are keeping tabs on Latvia's first gigafactory for battery cells. When operational, it'll slash import costs by 60% and create 800+ skilled jobs.

Managed by Utilitas, Latvia's largest wind energy producer, this project combines wind energy generation with advanced storage ...

Latvian energy storage projects are gaining momentum as the country accelerates its transition to renewable energy. This article explores key players, emerging technologies, and market ...

These systems, which use advanced lithium-ion batteries, offer a reliable method for storing and managing
