Whether for commercial & industrial or large-scale front of the meter projects, we offer integrated solutions for solar power, battery energy storage systems (BESS), energy management ...

The project includes design, supply, installation and commissioning of a total 40MWh BESS in two lots. Through professional design capabilities, strong technical support ...

Built at the Marseille-Fos Port, the marine geothermal power station Thassalia is the first in France, and even in Europe, to use the sea's thermal energy to supply linked buildings with ...

We specialize in solar energy storage solutions, energy storage battery systems, microgrid development, and photovoltaic power generation projects.

The project includes design, supply, installation and commissioning of a total 40MWh BESS in two lots. Through professional ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid ...

The Ministry of Finance, on behalf of Ministry of Environment, Climate Change and Technology ("the Employer") invites sealed bids from eligible Bidders for the Design, Supply and ...

Whether for commercial & industrial or large-scale front of the meter projects, we offer integrated solutions for solar power, ...

The development objective of the Project is to increase generation capacity from renewable energy sources
