Global South Utilities (GSU) has secured agreements with Madagascar to develop a 50 MW solar plant and a 25 MWh battery energy storage system (BESS) in the island nation. [pdf]

Dr. Ahmed Ali Attiga, CEO of APICORP, said, "The need for energy storage solutions in the MENA region is primarily driven by ambitious national renewable energy ..."

The project is part of KenGen's Good to Great (G2G) 2034 strategic blueprint, which aims to roll out 500 MWh of energy storage capacity across Kenya over the next decade. [pdf]

With rising temperatures and population growth, peak demand has surged by 40% since 2015. The Manama Photovoltaic Energy Storage Project isn't just another solar initiative--it's a grid ...

Enduring Sun Energy, registered locally as an IPP, is targeting to construct utility scale solar photovoltaic (PV) battery storage projects in Manama, Tsholotsho and Maphisa, with on ...

The energy storage targets will include short, medium and long duration energy storage systems, allowing energy to be moved around during the day to meet demand and to be supplied ...

Ever wondered how a small nation like Bahrain is making big waves in the global energy storage scene? As the sun beats down on Manama's futuristic skyline, the city is ...

As Bahrain positions itself as a renewable energy hub, the Manama energy storage project demonstrates how cutting-edge technology can turn sunshine into a reliable power source - ...

Can energy storage improve solar and wind power? With the falling costs of solar PV and wind power technologies, the focus is increasingly moving to the next stage of the energy transition ...

Solar Energy Corp. of India Ltd (SECI) has installed a battery energy storage system (BESS) with a capacity of 152.325 MWh and a dispatchable capacity of 100 MW AC (155.02 MW peak DC) ...
