From reducing diesel dependence to enabling solar-powered agriculture, distributed energy storage benefits create multiple value streams. As technology costs continue falling (13% YoY ...

The Omburu Energy Storage Project is located in central northern Namibia, with a designed storage capacity of 51 megawatt hours. It can release electricity to the grid during ...

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now ...

The Omburu energy storage project is the first independent large-scale grid-side battery energy storage project in Namibia, funded by utility and government grants.

E2S Systems is a Namibian based company that distributes mid, large and grid scale Battery Energy Storage Systems (BESS). Our proven technology partner from Europe, Visblue, ...

Let's cut to the chase: In December 2023, Windhoek made history by launching Namibia's first grid-scale energy storage system. This 54MWh project in Erongo Region isn't ...

Equipped with cutting-edge Victron Energy inverters, solar chargers (MPPTs), and STORAGEDOCK "prime life" lithium iron phosphate batteries, these units ensure unmatched ...

HOPSOL Africa is a technology leader for on- and off-grid solar power plants, fuel save controllers as well as solar diesel hybrid systems at utility scale (e.g. mining solutions).

Namibia Power Corporation (NamPower) has awarded a contract to Chinese companies Shandong Electrical, Engineering & Equipment Group and Zhejiang Narada Power Source to ...
