Does Norway have a ad valorem tariff?

Norway is subject to a 15% ad-valorem reciprocal tariff on virtually all imported goods, effective since August 7, 2025. The tariff was imposed under a new executive order citing the need to address what the US administration views as non-reciprocal trade practices and a large goods trade deficit.

What is the tariff rate for imports from Norway?

The current tariff rate for imports from Norway is 15%. However, this rate can vary depending on the specific product category and any applicable trade agreements or exceptions. How do Norway tariffs affect import costs? Norway tariffs directly increase the cost of importing goods by 15% of the product value.

Does the US have a reciprocal tariff on Norway?

The US has implemented new "reciprocal tariffs" on Norway as part of a broader shift in its global trade policy. Here is an update on the current status of US Tariffs and Agreements concerning Norway as of October 2025: Norway is subject to a 15% ad-valorem reciprocal tariff on virtually all imported goods, effective since August 7, 2025.

What were Norway tariff rates for 2019?

Norway tariff rates for 2019 was 2.62%, a 0.58% decline from 2018. Weighted mean applied tariff is the average of effectively applied rates weighted by the product import shares corresponding to each partner country. Data are classified using the Harmonized System of trade at the six- or eight-digit level.
