Arevon Energy recently celebrated the start of construction on its Nighthawk Energy Storage Project in Poway, California. The 300-MW/1,200-MWh project will be able to power up ...

One of the US's largest solar + battery storage projects is now fully online in Mojave, California.

One of Southern California's largest energy storage systems is now operational, providing clean power and improved grid resiliency across southwest Los Angeles.

The Nova Power Bank is a 680-megawatt energy storage project in Menifee, California. The facility, slated to be one of the largest in the industry, is being built on the site of a ...

The landscape of power storage technologies is rapidly evolving, introducing innovative solutions that promise to revolutionize how construction projects manage and store ...

MOJAVE, CA -- Mayor Karen Bass today announced the completion of the Eland Solar-plus-Storage Center project, one of the largest solar and battery energy storage projects ...

BEI Construction has the engineering, electrical and implementation expertise required on energy storage construction projects (BESS) and can deliver battery-based energy storage as part of ...

Through its global network of supplier relationships, Energy Vault was able to meet construction timelines while coordinating delivery of over 15,000 battery modules and critical, long-lead ...

Projects Bring a Combined 600 MW of Solar and 390 MW of Battery Storage to Power 270,000 Homes and Create an Estimated 950 Construction Jobs For immediate ...
