What is the largest shopping center in Prague?

PalladiumPalladium is the largest and most famous shopping center in Prague,it is considered one of the largest in the Czech Republic. Palladium is located in a former barracks,the interior of which is protected as a historic monument,but was changed so much during the reconstruction that practically nothing is left of it.

Who is responsible for the renovation of Prague's building stock?

Jaroslav Klusák,Head of the Energy Management Department at the Prague City Hall The renovation of the city's building stock is something that is directly implied by the creation of the Prague Renewable Energy Community.

Why does Prague need a photovoltaic system?

The renovation of the city's building stock is something that is directly implied by the creation of the Prague Renewable Energy Community. This is simply because the unused areas that they are located on can be adapted relatively quickly and efficientlyso that photovoltaic panels can be installed on them.

Can Prague replace coal in the heating industry?

If the carbon footprint of the heating sector is to be reduced,it is crucial to find a replacement for coal by 2030. As Prague does not own the district heating infrastructure in the city,it has limited options for "greening" the future energy mix in the heating industry of its own volition. However,this does not mean that there are no options.
