UAE-based Global South Utilities inaugurated a 53-megawatt solar project in Yemen to power 330,000 households, significantly enhancing local electricity access.

The Shabwa Solar Power Station is designed to power up to 50,000 homes, a significant development that will substantially bolster the region's energy supply and help meet ...

Funded by the United Arab Emirates and operational since July 2024, the 120-megawatt Aden Solar Power Plant supplies power to ...

In a significant stride towards sustainable development and energy independence, Yemen's Southern Transitional Council (STC) has laid the foundation stone for a new, ...

The world's largest 1 GW offshore solar farm located off the coast of Dongying, Shandong Province, China is now connected to the grid.

"By reducing dependence on diesel and fuel imports, these solar plants strengthen energy security and open the door for broader development in southern Yemen," said Samir Al ...

China has brought a 1 GW offshore solar power plant online off the coast of Dongying, Shandong province, combining PV with energy storage and aquaculture in what is ...

UAE-based Global South Utilities (GSU) has launched a 53-MW solar farm in Shabwah, Yemen, designed to supply energy to 330,000 households annually. The facility's ...

The completion of this 6.5 MW project underscores the growing importance of renewables in Yemen's power sector and highlights the country's abundant solar resources.

Funded by the United Arab Emirates and operational since July 2024, the 120-megawatt Aden Solar Power Plant supplies power to up to 170,000 homes daily, easing ...

The completion of this 6.5 MW project underscores the growing importance of renewables in Yemen's power sector and ...

The Aden Solar Power Plant, a 120-megawatt facility funded by the United Arab Emirates, began operations in July 2024. It now supplies electricity daily to between 150,000 ...
