Which companies are best for solar in San Diego?

Here are the top companies we recommend for solar in San Diego: One of the smartest decisions you as a homeowner can make to lower your monthly energy bill is to get the best solar panel installation done to your home. Solar Roof Air is the company most qualified to help homeowners throughout the Sunbelt to realize this go...

Is San Diego a good place for solar energy?

San Diego County also is a great location for solar energy, with abundant sunshine, clear blue skies nearly year-round and a prevailing political climate that supports solar power and other environmentally-friendly initiatives. San Diego has twice been ranked as the solar capital of the United States, in 2009 and again in 2012.

Is solar a good investment in San Diego?

Solar can be a big investment. Our goal is to highlight companies best equipped to meet most San Diego residents' energy needs. Sunlux is a top-rated solar company with a range of equipment options. We also like that its 24/7 monitoring app lets you easily track your system's performance, and tech support is on standby if anything goes wrong.

How much does a solar system cost in San Diego?

After the 30% federal solar tax credit, this drops to \$11,256, or about \$1.88 per watt. The total cost of a solar system will vary depending on the company you choose, the size of the system, the equipment installed, and how you finance it. How much can solar panels save in San Diego?

Turn to our solar power contractor in San Diego, CA, to outfit your property with a state-of-the-art solar system. We serve home and business owners.
