Why should you choose iStore hybrid inverter 5kW single phase?

With simultaneous AC +DC power output capability, you'll be able to install & generate more solar power, ultimately saving you more money on your energy bills. Explore premium solar products like the iStore Hybrid Inverter 5kW Single Phase offers seamless integration. Order Now!

Are victron inverters suitable for Australian conditions?

Victron makes a range of simple products designed for Australian conditions. With true sine wave output, their inverters are also rated for peak currents at up to twice the rated capacity. All units can be integrated into a software solution using Victron's web portal.

Which solar inverters are best for Australia?

With our diverse selection of inverters by trusted brands such as Sungrow, Growatt, SMA, Fronius, Huawei, GoodWe, Jinko and more, our range of solar inverters is built to last and perform optimally in Australia's weather conditions.

What is a hybrid solar inverter?

Hybrid solar inverters are designed for both grid-tied and off-grid solar power systems. They combine the functions of a grid-tied inverter and a battery charger in a single unit, making them a versatile and flexible solution.

Rated between 5kW and 6kW, the iStore Hybrid Series combines cutting-edge power electronics with transformer-free technology for maximum conversion efficiency and reduced energy loss.

Austra Energy is an Australian solar wholesaler distributing solar panels, inverters, energy storage and more to solar installers & retailers.
