What is a circuit breaker?

Enjoy payment on delivery on selected orders and best prices in Kenya. A circuit breaker is an automatically operated electrical switch designed to protect an electrical circuit from damage caused by excess current from an overload or short circuit. Its basic function is to interrupt current flow after a fault is detected.

What is a miniature circuit breaker (MCB)?

A Miniature Circuit Breaker (MCB) is a narrow breaker that occupies a single slot in a home breaker box. It is wired with one hot wire and one neutral wire. When there is an overload in a single-pole breaker's circuit, only that particular breaker trips.
